To whom it may concern,

This is a testament letter on behalf of Na Hale O Maui. Since the inception of Na Hale O Maui they had one thing in mind. To serve and provide the community the chance of homeownership. They gave me and my family a roof over our head. Provided us stability and a better future of my children. We have a place called home. For that we are very thankful. Currently a single family home has become unattainable for the majority of our community. Making that gap of homeownership even greater. Forcing our residents to move out of a place where they grew up and call home. You as the leaders of this community can be part of the solution. Grant Na Hale O Maui the land. They have the means and knowledge to make other families homeownership dream come to fruition.
