

As a residence of Maui, born and raised on the big island, owning a home on Maui has been a life time issue! I am a full-time manager at a restaurant in Wailea and I still cannot afford the prices of our real estate! This is obviously an issue, someone that has worked hard their entire life and still cannot forward to own a home in the community that they work! more affordable home is desperately needed!!!! These 18 homes will bring relief to 18 families. But what we need more is 100 homes, 1000 homes! 1000 affordable homes for the residence that work and live here, so that we may purchase a home and stop renting, so that we may purchase a home that is affordable and stop renting, stop rent and paying someone else's high mortgage with a high rent! There needs to be an extreme change in the housing situation on Maui!

I say these word sincerely,
Callie Casbere
